

Skills

- **Programming Languages** : Javascript, CSS, HTML, TypeScript
- **Libraries and Frameworks** : React, React Native, Redux, Next.JS, Node.js, Express.js
- **Tools** : Git, MySQL, PostgreSQL, No SQL, GitHub, MERN

Experience

Frontend Software Developer

Mar 2025 - Present

Trexo Fintech PVT LTD.

- Spearheaded the development of **trexoedge.com**, **one.wezboone.com**, and **trexo.money**, leveraging **Next.js**, **TypeScript**, **Tailwind CSS**, and **Zustand** to build high-performance, responsive applications from the ground up.
- Led and mentored a team of two junior developers, overseeing the entire project lifecycle and ensuring the successful launch of multiple payment gateway and corporate showcase websites.
- Architected and implemented scalable frontend solutions, establishing a foundation of reusable components and efficient state management with **Zustand**, which significantly streamlined the development process across all projects.
- Ensured code quality and maintainability through regular code reviews, consistent application of modern best practices, and the use of **TypeScript** to create a robust and reliable codebase.

Software Development Engineer

Nov 2022 - Mar 2025

Solanki Technologies

- Developed and optimized responsive UI components using Next.js, TypeScript, Mantine UI, and Tailwind CSS, enhancing accessibility and user experience.
- Transformed Figma designs to high-performance, reusable UI components, reducing code redundancy.
- Integrated RESTful APIs with backend teams, enhancing data flow and increasing user engagement.
- Optimized application performance using lazy loading and code-splitting, reducing load times by 40%.

Projects

TrexoEdge Advanced Payment Gateway Platform

🔗 <https://trexoedge.com/>

- Developed the platform **from scratch** using **Next.js (SSR/SSG) with TypeScript**, ensuring scalable and maintainable architecture.
- Built **modular UI components** with **TailwindCSS** for a responsive, consistent, and modern design system.
- Implemented **Zustand-based global state management** for transaction flows, user authentication, and real-time updates.
- Added **advanced features** like reseller management dashboards, live chat support/help section, subscription & plan management, and enhanced payment flow UX.
- Collaborated with backend engineers to integrate **secure APIs** for transactions, authentication, and reseller operations.

Wezboone Minimalistic Payment Gateway App

🔗 <https://one.wezboone.com/>

- Designed and developed the app **end-to-end from scratch** using **Next.js with TypeScript**, following best practices in component-driven development.
- Implemented **minimalist UI/UX** using TailwindCSS, focusing on speed, accessibility, and ease of use.
- Integrated secure **payment APIs** with proper error handling and form validations.

Go Play Turf

🔗 <https://goplayturf.com/>

- Developed a turf booking platform with Next.js, Tailwind CSS, and Mantine UI for a responsive and visually appealing design.

- Built an interactive booking system with real-time slot availability and integrated QR code scanning for secure check-ins and Google Maps API for location-based searches.
- Managed state efficiently using React Query and Jotai, optimizing API calls.
- Integrated payment systems and developed user profile management and admin dashboards.

Tanker ERP

<https://dpinfrasquare.com/>

- Built a full-stack ERP system for water tanker businesses using Next.js, Nest.js, Prisma ORM, and PostgreSQL to streamline sales tracking & invoicing.
- Automated Excel sales reports generation with XLSX.js for financial insights.
- Implemented secure authentication and role-based access control using NextAuth.js.
- Ensured performance optimization and code quality with ESLint, Prettier, and TypeScript.

Women Safety SOS

<https://womensafetyapp.com/>

- Developed a mobile app with React Native, Expo, and React Native Paper for real-time location tracking and emergency alerts.
- Designed custom UI components, dropdowns, and modals, ensuring an intuitive and responsive user experience.
- Optimized performance with Reanimated and React Navigation, focusing on accessibility and smooth animations.

Education

Universal College Of Engineering, Mumbai University. BE/B.Tech in Computer Science	2019
KBPS Sahyadri Polytechnic, MSBTE, Pune. Diploma in Computer Science	2016
Holy Cross High School, Bhayandar. SSC	2013
